

ProTwin

Professional spray and foaming system

Your Choice,
Our Commitment

ProTwin

Professional spray and foaming system

ProTwin is a cleaning and sanitizing station that automatically mixes and dispenses concentrated chemicals. With a clean, professional appearance it comes with a built-in hose storage. A detachable foam wand extends usage options.

SEKO's ProTwin system is ideal for large food preparation areas and is suitable for the retail, institutional and healthcare markets. Featuring an ergonomic design that is HACCP compliant ProTwin automatically mixes and dispenses concentrated chemicals through its spray gun which features an adjustable spray pattern delivering high levels of wet foam.

Its central dial selector makes switching between Rinse & Sanitize functions easy even with wet gloves. The ProTwin optional foam kit provides unsurpassed dry foam performance, making cleaning high level vertical or difficult surfaces easy.

Features

Adjustable spray pattern

Separate selectable chemical position eliminate risk of chemical crossover

Unsurpassed foam quality when equipped with foam wand

Engineered eductors ensure accurate, proportionate dosing, easy to clean and be replaced

Intuitive ergonomic design for user friendly operation

3 functions spray/foam and rinse up to 60°C (140°F) tolerance

Multi-layer hose, improves flexibility and chemical resistant, see page 29 for further information

ProTwin
